The old Goats Meeting

June 13, 2014

Monthly Meeting at the Little Rock Club

Dr. Hathaway was attending a family reunion therefore the meeting was turned over to the speaker, Dr. Joel Anderson, Chancellor, University of Arkansas at Little Rock by Steve Stephens. He presented his hopes and plans to make South University and the area surrounding UALR more functional and inviting to not only the students but to the public. Among many thoughts were to better utilize the surrounding businesses and to change at least four intersections to roundabouts. These have been proven by many studies to have all the benefits with no disadvantages. His presentation was well accepted by the Old Goats.

Everyone having enjoyed the eleven thirty lunch, the meeting was adjourned until our regular meeting in July.
