

Duplication Services by Staff

The staff at UALR Center for Arkansas History and Culture (CAHC) performs duplication services for those who would like reproductions of our materials. Please note that the Center cannot normally fulfill duplication requests on demand.

Depending on the nature of the request, [charges](#) may apply. The Center reserves the right to refuse duplication requests for materials too fragile to safely reproduce or that would violate copyright, privacy, or donor restrictions.

Photocopies/low-resolution scans

Patrons may generally request up to 100 pages per 30 days. Please see our price list.

High-resolution copies

Existing digital copies

For materials that have already been digitized, there is no charge for duplication. Patrons may generally request up to five items per week. To view our digitized items, please visit our online catalog: www.arstudies.com.

If, however, you would like an item at a higher resolution than our master copy, then the normal rates (see price list) will apply as the item will need to be re-digitized.

No pre-existing digital copies

Patrons may request up to 5 items per month be added to our online catalog at no charge. This only applies to items that can be digitized in-house.

For personal copies of materials that have not already been digitized, please contact us at cahc@ualr.edu for prices. The Center will generate an invoice upon receipt of a request. Requests will be processed after payment is received.

To request an item be duplicated, please complete the [Duplication Form](#).

Want to use an item in a publication? Please see the [Permissions and Copyright](#) webpage
