

Graduate Curriculum Committee (GCC) Meeting, Fall 2013
November 20, 2013
11am to 12noon
EIT 543

Present: Yupo Chan, Nitin Agarwal, Hirak Patangia, Coskun Bayrak*

Absent: Amin Akhnoukh

1. Minutes from October 16, 2013 meeting were reviewed and approved. (Yupo made the motion, Hirak seconded).
2. PCF for Applied Science doctoral program was reviewed. The intent of the PCF was to delete the Information Quality and Applied Computing emphasis areas from Applied Science doctoral program. The PCF was approved. (Hirak made the motion, Yupo seconded).
3. Revised PCF and LON from Computer Science department to change the program name from 'MS in Computer and Information Science' to 'MS in Computer Science' was reviewed and approved. (Hirak made the motion, Yupo seconded).
 - Revision history: Committee had suggested to revise PCF and LON to reflect that it is exactly the ADHE archive files that need to be updated with the program name change, and not the UALR catalog.
4. Meeting adjourned at 11:20 AM.

* Since this was an unusually short meeting, Coskun (who was running late from his previous appointment) could not participate in the face-to-face discussion, but checked with the committee chair (Nitin) later and provided input.
