How to Connect to Desktops Using a Browser

1. Open up the browser on your computer
2. Type desktops.ualr.edu into search bar
3. Click “VMWare Horizon HTML Access”
4. Type in your credentials which are the first part of your UA Little Rock E-mail and the associated password
5. Make sure that on the dropdown menu, student is selected.
6. Click login, here you should see your available connections as well as a list of programs that are available for you to use. Click the associated connection and or program. You will be connected to your desktop, or the program will load for your use.
