Assessed Courses

Data for this report was collected from the following Core courses:

HIST 2311 US History to 1877
HIST 2312 US History since 1877
POLS 1310 American National Government

Scoring Rubric

A five-point scoring rubric was used for all data reporting. The table below shows the five levels, the scores assigned to each level, and the general guidelines that Core Area Assessment Committees (CAAC) used to score collected artifacts.

Level	Score	“Assessment of this artifact indicates that the student...”
Advanced	4	“... was successful at ...”
Proficient	3	“... attempted and was usually successful at ...”
Novice	2	“... attempted but was not always successful at ...”
Not Met	1	“... made little attempt at ...”
Absent	0	“... made no attempt at ...”

Data Interpretation Method

The Results presented in this document are reported by Learning Outcome and by Teaching Modality. The arithmetic mean for each level (Advanced, Proficient, Novice, and Not Met) was calculated based on the total number of artifacts that scored at each level divided by the total number of artifacts scored overall, with the number of Absent level artifacts removed from the total.

$$[Level] \text{ Mean} = \frac{\text{Number of } [Level] \text{ Artifacts Scored}}{(\text{Total Artifacts Scored} - \text{Number of Absent Artifacts Scored})}$$

The Results for each Learning Outcome and Teaching Modality are presented in tables, pie charts, and radar charts. Total percentages on tables and pie charts sum to 100%, and total values on radar charts sum to 1.0.
