**Five program changes, nine new courses, twenty-six course changes and eight suspensions since 10/30/2020.**

**We also reviewed the teach out plan for the BFA in Dance. The main concern from the committee was being able to offer the courses necessary for the remaining students in the program. We believe the department and college have a plan to offer the courses necessary for completion of the program for the remaining students. We see no other issues with the teach-out plan.**
