None

Dean's Report

- An electronic graduation process will be implemented in fall 2004. The graduate school will be more involved in the check-out process.
- Doctoral students must be completely finished before they can participate in commencement. The dissertation must be approved by advisor and a copy in the graduate dean's office. A definite deadline for completion will be set by the graduate school and published. At present, the deadline is set for two weeks prior to commencement.
- Strategic plan report (final report of the sub-committees) has been sent online through the facfocus list-serv. Everyone is encouraged to view and comment.
- Many of the dean's new initiatives were at the graduate level, particularly the doctoral level.
