ACADEMIC PLANNING CONSIDERATIONS

Sequential Course Structure: Tax courses build upon each other systematically. Begin with Federal Income Taxation and progress through Advanced Taxation before specialized courses.

Business Knowledge: Tax practitioners must understand business structures and transactions. Complete Business Associations and related commercial law courses.

Clinical Experience: Tax Clinic provides invaluable practical experience with real clients and IRS matters. Highly recommended for all tax practitioners.

Continuing Education: Tax law changes frequently. Develop strong research skills and commit to ongoing professional education throughout your career.
