ADDENDUM #4

DATE: 3/26/2026
SUBJECT: FB-26-013

The following change(s) to the above-referenced solicitation have been made as designated below:

- Change of specification(s)
- Additional specification(s)
- Change of bid opening time and date
- Cancellation of bid
- Other

ADDITIONAL MEASUREMENTS AND DETAILS OF PLANETARIUM

The dome has a diameter of 40 feet. The top of the planetarium perimeter wall (or bottom of the plaster dome) is 6 feet 8.5 inches above the finished floor, and the highest point of the dome reaches 27 feet above the finished floor. The dome is a suspended plaster-on-lath ceiling supported by the third-floor structure above.

The CAD floor plan can be used to scale the dimensions of the rooms surrounding the planetarium; however, the University does not guarantee its accuracy.

CLARIFICATION OF SUPPLIER EXPECTATIONS

Vendors are responsible for field-verifying the space to determine the best equipment and layout for their system. Accurate measurements are essential to ensure the design meets the specifications and requirements of the proposed equipment.

Vendors may decide whether a site visit is necessary prior to submitting their proposal. The University is flexible regarding the date and time of any site visit and will make every effort to accommodate vendor schedules.

The University expects the successful vendor to conduct a site visit before finalizing the design. A complete shop drawing—including equipment layout, cabling, seating, and other relevant details—must be submitted to the University for review prior to proceeding. The University anticipates working closely with the vendor and our construction partner to make any necessary modifications to the existing space to accommodate the new system.

NOTE: The specifications by virtue of this addendum become a permanent addition to the above-referenced solicitation. It is each respondent's responsibility to thoroughly examine and read the entire solicitation and any Q&A or addenda to this solicitation. Failure of respondents to fully acquaint themselves with existing conditions or information provided will not be a basis for requesting extra compensation after the award of a contract.

If you have any questions please contact Procurement Services at procurement@ualr.edu or (501) 916-3144.
