

## CHEM 1402 Placement Test Instructions

- **PLEASE BE SURE YOU HAVE A CALCULATOR BEFORE BEGINNING THIS TEST!**  
You may only use a basic, non-graphing calculator.
- A score of *at least* 60% on this placement test is required to enroll in the course.
- You may take this test only *once per semester*.
- You will have 25 minutes to complete this test.

### **Blackboard Enrollment:**

- Log-in to your Blackboard account using your netID and password.
- Click on “myOrganizations” at the top of the page
- In the search menu to the left, type in Chemistry
- To the right of the “chemistryplacement” Organization ID, click the down arrow. Then click Enroll. (see screenshot below)

- Click “SUBMIT” and then “OK”
- Once enrolled, click on the Placement Test and click “BEGIN.”  
Testing staff will enter the password to start the exam.

After you have finished, **leave your score on the screen.**

Testing staff must verify and record your score to put it on your file.

If you close the window, it may be up to several days before you can register.
